Dear Mom & Dad—

This is the reason why this officer can never change his story.

In addition to this he was on T.V. in person and he is a hero in SILVER LAKE (where he lives.)

He was on TV the night before they arrested me and I would give anything to get a transcript of this conversation to see if he said anything whatsoever about seeing the robber who got away.

The only reason he was shown a picture of me at all is because I called the FBI and asked them if they wanted to see me.

They said no and took three pictures of only me to show him.

They showed him my pictures right after I called them in early morning of November 18 (around 7 or 8) and they didn't arrest me until 5 or 5:30 that night even though they knew where I was all day!

Jack this police officer had to see me when they were putting the dead man in an ambulance because everybody was looking at each other and also looking towards where the one robber escaped.

I saw a police officer there with his hat off and other officers were talking to him — (this guy lost his hat and glasses back at the bridge when shot) — and that just had to be when he saw me at all.

But what can I do to help myself when I'm locked behind bars?

Love Charles
